DETAILED ACTION

Election/Restrictions

1. Claims 60, 63, 67, 70, 71, 80, 84 and 85 allowable. The restriction requirement between Species I-VI as set forth in the Office action mailed on 05/20/05 has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 64-66, 69, 73, 82, 83, 87 and 88, directed to Species 4-6 are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim. However, claims 62, 81 and 86, directed to species 3 and 4 are still withdrawn from consideration because they do not properly require all the limitations of an allowable claim. Claims 62, 81 and 86 are directed to the enclosure being a wall enclosure, which is not properly dependent to include all the limitations of the independent claim, as the independent claim requires the enclosure being comprised of a set of deflectable strips.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.
3. This application is in condition for allowance except for the presence of claims 62, 81 and 86 directed to Species III and IV non-elected without traverse. Accordingly, claims 62, 81 and 86 have been cancelled. The application has been amended as follows: **Cancel Claims 62, 81 and 86**
4. The following is an examiner's statement of reasons for allowance: The closest related prior art is considered to be directed to Wilson, US Patent 6,158,165. Wilson discloses a first and second set of deflectable strips surrounding an aperture within a hollow chamber. However, the Wilson reference fails to teach or render obvious the second set of deflectable strips being interlinked together by short strips so as to form an enclosed passageway. The Wilson reference also does not disclose the deflectable strips constituting the crawl path art twisted. The prior art of record does not reasonably teach or provide motivation to modify the Wilson apparatus so as to obviate the claimed structural limitations of the instant application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
